

**CORK**

Environmentally friendly and having a distinctive tactility, cork is delightfully versatile. The all-natural material is also anti-static, anti-microbial, water-resistant and fire-resistant. No longer just for bottle corks and corkboards, this trendy material can now be seen all over and is used in countless applications, from tableware to panelling. Favoured for its raw, utilitarian aesthetic, it also matches well with other natural materials and elements.

3. Normann Copenhagen Mormor **sugar bowl**, from Kuhl Home
4. Karlsnas **frame**, from Ikea
5. Muratto Organic Blocks Hexagon **panelling**, from Beltiston

**LEATHER**

Leather is an age-old material of choice, when it comes to upholstering furniture, but it is being used in more inventive ways now. In larger doses, its natural beauty and smooth suppleness lend modern luxuriousness to any space; when used as an accent for furniture and decor, it augments a piece to bring out its unique characteristics – a trendy update for a timeless material.

## COLOUR INSPIRATION: HEART WOOD

Translating the mood of a welcoming, cocooning home is the AkzoNobel Colour of the Year 2018. It's a subtle, heart-warming mauve-meets-blush shade that's a great complement to a natural or woody material palette, for both rustic and contemporary interiors.
